UAE e-Invoicing Public Consultation Now Open

As businesses gradually gear up towards the monumental e-Invoicing initiative in the UAE, the Ministry of Finance has marked an important checkpoint in the e-Invoicing journey by officially launching the public consultation process with the publication of the e-Invoicing Data Dictionary document.

Key Elements of the Document

- Blueprint of the **UAE's e-Invoicing framework** – outlining the UAE's adoption of the Decentralized Continuous Transaction Control and Exchange (DCTCE) model, which is an advanced electronic invoicing system utilizing decentralized technologies to improve the efficiency, security, and transparency of transaction processing.

- Introduction & overview of the **Data Dictionary** - a comprehensive list of all the data elements used in creating, sharing, processing, and reporting e-Invoices. These elements are crucial for supporting every stage of the e-Invoicing process, ensuring that all necessary information is captured, organized, and structured to facilitate smooth and compliant e-Invoicing.

- Key areas of focus for **stakeholders** – encompassing the critical aspects of feedback to draw attention to by stakeholders, with the objective of improving the Data Dictionary through the consultation.

- Detailed attributes for **sample invoice cases** – covering the comprehensive mandatory & optional fields for 15 sample use cases of e-Invoicing.

Link: <https://mof.gov.ae/wp-content/uploads/2025/02/UAE-eInvoicing-Public-Consultation-document.pdf>

- The consultation period will remain open until the deadline for the submission, being **27th February 2025**. This is a unique opportunity for businesses to have their voice heard and contribute to the successful rollout of e-Invoicing in the UAE.
- This **feedback** shall help shape the future of this important initiative and ensuring it meets the needs of all stakeholders involved.
- We at Andersen in the UAE are currently engaged with a significant number of prominent large & diverse groups across the UAE on **e-Invoicing initiatives**. These groups feature a wide range of ERP systems, operate under complex legal structures with multiple entities and branches, and manage various tax groups.
- We are enthusiastic to share valuable feedback with the **Ministry of Justice**, incorporating the practical views, scenarios & challenges of our associated clients, along with our technical partner, to ensure compliance with the requirements is at the forefront.
- Stay tuned as Andersen in the UAE works to simplify the complexity of this significant paper for you - breaking down what this means for your **compliance** and how it impacts your journey towards ensuring smooth & successful e-Invoicing implementation.
